

MEAT & SEAFOOD RECYCLING

RECYCLE UNSOLD MEAT AND SEAFOOD TODAY!

Quest Recycling can help you recycle unsold cuts of meat, seafood, as well as fats and bones into valuable resources.

The program leverages Quest's network of pre-approved, licensed collection and recycling companies which allows you to take advantage of regional marketplace dynamics while benefiting from Quest's single point of contact for all your service needs.

PROGRAM BENEFITS

Reduce Cost

- One company to manage all your locations across North America
- One customized invoice per month

Maximize Recycling

- Sent to zoos and other animal facilities
- Processed into nutritious animal feed additives
- Fat is further processed into lubricants for industrial use

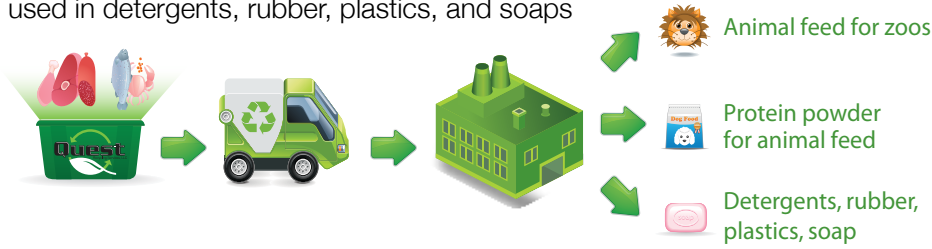

MEAT & SEAFOOD RECYCLING

Specialized containers collect unsold meat, unused trimmings and seafood at the customer's location; bins are kept in the refrigerated section.

Containers are emptied frequently and sent to a recycling facility; service is based on volume.

Unsold meat is recycled into

- Animal Feed
 - Zoos and animal facilities
 - Protein powder added to animal feed
- Lubricants used in detergents, rubber, plastics, and soaps

QUEST RECYCLING SERVICES DELIVERS:
